

To our esteemed customers

Determining precise pricing for pest control services can vary based on factors such as the type of pest, severity of infestation, size of the property, and specific treatment methods required. While Jaya Pest Control does not publicly list its prices, we can provide general estimates based on industry standards in the region.

Estimated Price Ranges for Pest Control Services:

Below is an estimated pest control service price range for a standard service in Lusaka: 1.

5	Cockroaches & flies	2,500 – 3,000 +
6	Termite control	3,500 – 6,000 +

Additional Considerations for our Clients:

- Prices may vary depending on the severity of the infestation, property size, and required treatment methods.

2. **Customizable Packages:**

For large commercial properties or corporate clients with specific needs, we offer **customized packages** with tailored pricing.

3. **Site Inspection and Survey Fees:**

For initial site inspections of large or complex properties, we charge a non-refundable inspection **fee** of **ZMW 500**. Note that this only applies to locations within Lusaka that are **15km from our office** in the Chamba Valley area.

4. **Discount for Multiple Locations:**

We offer a discount (e.g., 10-15%) to clients with multiple locations (e.g., more than one branch, office, or facility).

5. **Specialized Services:**

If the client requires additional specialized services, such as **pest-proofing** or customized **baiting systems**, quote additional charges based on complexity.
